Legal Consultancies and Studies

Provision of legal consultancies in criminal, civil, commercial, administrative, labor, and personal status fields. Making studies and researches in all legal scopes.

Providing all consultancy, technical, and accounting services, making and preparing utility studies jointly with offices specialized in such fields as well as providing consultancies and Fatwas related to the Kuwaiti rules and regulations or the others foreign laws and rules, therefore, the office hired many experienced attorneys and consultants having large knowledge in laws. While such service may be provided in writing to the customers to enable them to quote what he needs therefrom to provide any complaint regarding his case.

Contracts Preparing & Conclusion

Civil, commercial and administrative contracts preparing and conclusion (International and National) and to review them, pleading against the third parties in respect of their conditions, requirements, giving resolutions and suggestions in respect of any obstacles meeting the execution of such legal problems and to follow their execution in the following issues:

Civil Contracts

Sale- rents - contacts and subcontracts working- agency - deposit- security - guarantee

Commercial Contracts

Agencies, trademarks and sales - companies of all kinds - commercial mortgage - guarantee - transport. Commercial contracts: financing-investment - supply.

Administrative Contracts

To review the contracts made by the office's customers with governmental authorities, participating in negotiations before entering in them and solving problems that may face their execution, and legally and rightfully request their rights.

The office provides the long experience it has got in contracts preparing, conclusion and making of contracts and agreements, contractual auditing and to review all the contract words and expressions, all contracts and translation of all contracting or investment companies and sales contracts of all types and the office does its

best to find solutions for all disputes that may arise out of the execution of such contracts or their terms in the future.

Preparing and reviewing all local and international contracts and agreements and giving the legal opinion

thereon, correction of their spelling and legal mistakes and to avoid all entrapments may face their executions or cause damages to the customers well as the office provides negotiations services and attend meetings, representing the principal by providing the experienced elements in such field.

Following lawsuits and cases in the legal field in check and review the legal text that must be applied in the concerned case filed or may be filed before the courts therefore we assign the legal and technical experiences

available for us while such works shall be done by taking the required legal procedures relevant to protect the customer's rights with the third parties through the normal or private judgment inside the state of Kuwait or abroad by the local or international division and utilizing the services of the other offices that are approved inside and outside Kuwait.

Preparing for lawsuits filed by or against the principal in all litigation types makes its case to be legal and acceptable and to face its litigants through the relevant defense.

The office directly conducts all various civil, criminal, commercial, administrative, labor, and personal status cases and lawsuits while cases conducting means representing the other and signing on their behalf in all case's phases till the execution phase of each lawsuit as per its legal nature.

Our firm is considered one of the law firms with expertise in the field of criminal and civil cases, corporate cases, intellectual property, combating commercial fraud, liquidation of companies and their division by satisfaction and judiciary with its distinguished cadres.

Labor disputes

The office's consultants have the adequate experiences to conduct the labor disputes in both private and oil sectors, the civil service law and the office enjoys its long experiences in compensation field in respect of accidents arises within work sites, service termination benefits, work contracts conclusion and to solve any disputes arising out of works contact in respect of the employee's salary, promotion and labour dues cases.

The Field of Administrative Justice

The administrative judgment is different from any other kind of judgment due to the matter doesn't include texts govern the relations and without any suspect that more of the countries business began to effect and effected by the private sector and individuals and the administrative judgment has gained an effecting role due to difficulty in managing of lawsuits and cases which need specialized law-yers and consultants in the legal field so the office management did its effort to hired a numerous number of those lawyers and consultants having the largest competency in this field of the administra-tive judgment without any other branch of law what may ensure accurate and competent procedure.

Arbitration and means of problems solution

The office also has the consultancy experiences in arbitration (private judgment) and to represent its principals before all local and international arbitration departments, preparing arbitration conditions and the alternative means for disputes resolution where arbitration, mediation and negotiation's may be made by the office available experiences and the office is ready to provide all technical experience qualified in this field.

Penalty Law

This branch of law is considered the most accurate of its types due to its connection to human life and the threat to psychological assault, display, and money as well as the penal texts imposed to protect public money because of the accuracy it needs in understanding the issue at hand and the necessary legal text applicable to it, especially since it is most often The accused has restricted his freedom to pending the case, as in the cases of embezzlement, appropriation of money, forgery, fraud, bankruptcy crimes, and other crimes related to money and the office works through its specialized team also in this field and access to his client to show their rights with the consultants of the office of long practical experience in this field which includes It also represents the client in criminal cases with civil allegations, as well as provides criminal advice accompanied by legal texts, and judicial rulings similar to the case at hand, and works to provide the legal half of the client in order to avoid falling under the penalty of partial law in the future.

Banks, finance and investment

Our office has a lot of experience negotiating in bank-ing disputes and claims arising out of loans, docu-me-ntary letter, letter of credit, and all credit contacts. Pl-edge, Loans, and warranty contacts preparing and writing, following their registration and recording as per the legal procedure inside Kuwait and abroad.

Intellectual property, trademarks and patents

The office provides all types of services to its princip-als including trademarks, copyrights, and patents registration, providing advice regarding problems that may arise in the future and giving the relevant solutions thereof, and managing the legal cases and lawsuits related to commercial and trademarks disp-utes and any violations may be made against them as well as any disputes may arise out of the intellect-ual property, patents, and copyrights, insurances, use, and registration of those rights.

International Division

Due to existing of lots of international companies working in the state of Kuwait in various fields what may arise out of legal relationships with similar Kuwaiti companies or individuals. Therefore, the office established a division to manage the international law which provides services in many fields for the local and international establishments and companies in order to represent them in the Kuwait market and the office ensure to the local companies to implement their transactions in abroad without any legal difficulties and the office has a large experience in providing assistance for the foreign companies in order to comply with the applicable laws, provisions and regulations applied in the Arab Gulf Countries in general and in the state of Kuwait in particular, making negotiations and agreements and any arising rights may be accrued to the foreign principal company's in the state of Kuwait and to protect the rights of those companies while they are managing business in the state of Kuwait and other countries and the office have distinctive position in the field of the international case and lawsuits where the services that the office may provide to the foreign companies include the following: Preparing and reviewing the international contracts and agreements and to clarify them against any mistakes and errors.

Consultation of international commercial transactions and investments and the laws applicable to establish companies of the foreign partners. Finding the legal solutions of the foreign companies establishing inside and outside the state of Kuwait.

Provision of legal assistance through offering the legal opinions and advices for the foreign companies and reviewing their compliance with the international and legal laws and regulations.

Judgments executions and money collection
